Hello,

My apologies for not being more clear. Snake River Oil and Gas has submitted two applications for two separate spacing units. One was submitted on 02/24/20 and has Docket No. CC-2020-OGR-01-001 and another application was submitted on May 26, 2020 and has Docket No. CC-2020-OGR-01-002. Both of these applications are in Payette County. Which Docket/application are you commenting on?

Thank you,  
Kourtney

Mr. and Mrs. Taylor,

Thank you for your response.

- 1- Is this a comment letter on oil and gas or is this directed to one of the active contested case proceedings?
- 2- If this is related to one of the contested case proceedings, can you please verify which one it is?

Thank you,

**Kourtney Romine**

**Subject:** Snake River Oil and Gas Concerns

To whom it may concern:

We do not want this company to be allowed to drill and frack in Idaho. In our studies we have many concerns but one of our highest concerns is the immense amount of water that needs to be used for this company. Considering we are an agricultural state, we need CLEAN, AVAILABLE, water for our farmers, ranchers, and local citizens. The needed used methods puts our wells, rivers, ponds, personally owned lands, etc. in danger of lack of needed water and contamination due to the process they use. This could also contaminate the very land needed for livelihoods.

Please do not allow any company to do this destruction to Idaho.

Respectfully,  
Mr. and Mrs. Taylor  
Payette, Idaho
