RE: to Docket No. CC-2020-OGR-01-003 – Integration Order CC-2016-OGR-01-001

Mr. Thomas,

I was born and raised in New Plymouth and would like to express my support for Snake River Oil and Gas.

I believe the United States should operate as independently as possible from other countries. Allowing Snake River Oil and Gas to fairly and safely take advantage of the abundance of resources available is one way to do that. Many of the luxuries we enjoy in modern life relies on natural gas. An obvious example of that is the total power loss parts of this country are experiencing right now and the freezing cold weather people are forced to endure as a result. Snake River is a company who cares for our lands. They should be allowed to contribute to our country's independence from others. People who don't agree with their sound methods don't live in our community and don't represent us. Not only are they stopping a respected business from operating, but they are costing the mineral owners millions of dollars in the process. The people who own the minerals and own the land should be able to decide what they do with that land—especially when Snake River Oil and Gas is the one behind the operation.

Thank you,

Rob Murdock

New Plymouth, Idaho
