To: Idaho Department of Lands - Attention Mick Thomas

Re: IOGCC Docket No: CC-2020-OGR-01-01-001

Dear Sir;

I am opposed to the issuance of any further drilling permits or procedures leading to the issuance of drilling permits in the towns of Fruitland and Payette based on the use of forced pooling regulations to obtain leases.

It is my belief that forced pooling regulations are in violation of personal property rights and will be determined to be illegal by future court rulings.

Thank you for considering my objection to this spacing order application.
