Hello Mr. Thomas,

I am a farmer in New Plymouth who also had the pleasure of growing up here. I have the upmost respect for our lands and community. I see Snake River Oil and Gas as a great partner to both.

Snake River has invested a lot of time, energy and money into our community. They support our local businesses often by purchasing goods and services from around the area. These businesses need as much support as they can get due to the hardships they've faced during the Coronavirus pandemic. People in this area need support as well. Mineral owners are losing millions of dollars due to this setback which isn't fair to them.

Natural gas is an essential part of our lives and we're lucky to have a business like Snake River working in our state to make it available for people to use. While there is a small group of very loud people (CAIA) who are trying to stop this industry within our state, there are thousands of people who support it. Many Idahoans believe that Idaho should remain as independent as possible, and one way to do that is by allowing a responsible business like Snake River to operate.

In my experiences with the company, Snake River Oil and Gas always exceeded my expectations. They've worked hard to develop and keep the trust of the people who live here. Please allow their development to continue.

Thank you for taking the time to consider this letter,

Doug White

New Plymouth, Idaho
