Kourtney,

Attached is a copy of our letter regarding the Barlow 2-14 well

Thank you,

Linda

RE: BARLOW 2-14 SECOND WELL SITE

Kourtney,

We live in Payette County, City of Fruitland we are against the request of Snake River Oil and Gas's request to drill a second well Barlow 2-14.

This well will be approximately 20 feet away from a well that is already having problems why would you even consider letting them drill another well in this area. These wells are within the high-water flood zone for the Payette River and a short distance of the water intake for the City of Fruitland water treatment plant. Snake River should be required to do a new integration application if they want to continue with this request. I know it will cost them additional money but that is the cost of doing business.

You should be protecting the citizens of Idaho who live here, pay taxes and vote. Why are you more concerned with the profits from an out of state company? If this allowed to continue it will impact our property values and quality of life.

Please consider the wildlife that relies on the Payette River and what will happen if there is a leak which we all know will happen at some point.

LISTEN TO THE PEOPLE OF THIS CITY AND COUNTY AND VOTE NO!!!!
