March 23, 2020

Dear Sir;

As I wrote in a previous letter, we are totally opposed to the opening of the wells that this hearing is about.

Our home and our private property rights are being invaded by these folks that apparently do not take No for an answer. When we were called we said no, we did not wish to sell our mineral rights. Now this firm, whatever name they are going by is, is attempting to attain our right by hook or by crook it seems.

They have changed, once again, the amount of property they wish to vandalize now its 300 acres instead of 160 acres, we don't think they should have any acres other than what they already have under contract.

It has appeared by the pipe they have buried already that they are assuming that their wishes will be granted. We sincerely hope that is not the case.

Thank you,

Sincerely

Diane Johnson
