Boise, ID 83702

**Re: Application of AM Idaho, LLC for spacing order and to integrate unleased mineral interest owners in the drilling unit consisting of the SW ¼ of Section 10, Township 8 North, Range 5 West, Boise Meridian, Payette County, Idaho; IOGCC Docket No: CC-2019-OGR-01-002**

Dear Mr. Thomas;

We are writing this letter in **opposition** to Alta Mesa drilling near our home. The Fallon well is 100 yds south of the Payette River and 1000 feet from the Fruitland Water Plant. Our home is just south of the Payette River as well. We are very concerned about our homes property values, the safety of our water, the quality of our air and the surrounding landscape of our beautiful neighborhood.

If the request does end up being approved, we want the following to be ensured for us and our family:

- Our property values to be free from jeopardy. It is our understanding that values typically drop 2 to 13% in areas where drilling is occurring and up to 75% if the water is contaminated.
- Our water supplies be free of contamination.
- Our family's health free from any health risks.
- The Payette River and our air quality be environmentally safe.

We do expect the Idaho Department of Lands to do your job and protect private property rights!

Sincerely,

Robbie and Bonnie McGehee  
1465 Ponderosa St
