Subject: RE CC-2020-OGR-01-003 hearing
Date: Sunday, March 07, 2021 10:06:55 AM

I understand there is an administrative hearing about integration in Fruitland.

As a resident of Fruitland I would like to request that the Snake River Oil and Gas in the "new" Section 14 spacing unit for the Barlow #2-14 well be required to have a -new- integration application.

There has been significant growth and development in Fruitland since 2015-16 the original integration application It would be irresponsible not to reassess the impact on the area and landowners.

Thank you

Barbara Martien
