Idaho Department of Lands Attn: Mick Thomas  
300N 6th Street, Suite 103  
Boise, Idaho 83720

Dear Sir or Madam,

I am writing in opposition to this order. The risks of water contamination and the negative impacts on property values are far greater than the value of oil and gas that might be taken from this or any other populated areas in the Boise River basin. Also the history of transparency by O&G companies in this geography is abysmal, and O&G exploration can only be allowed if there are sufficient regulations to assure the protection of the health of families and protection of their property rights. I do not believe this is currently true. Please deny Document No CC-2019-01-001 requesting a 300 acre unit.

Thank you for the opportunity to comment.
