Ms. Romine,
Jim & Beverly were having issues with their computer. They asked me to forward their letter to you. Their email is gmajonidaho@gmail.com
Thanks,
Julie Fugate

This is in regards to the Hearing for the proposed Barlow 2-14.

My name is Beverly J Smith, my husband is James L Smith. We purchased our home and 10 acres on Shannon Rd, Payette, on August 1, 2004. We are in the Fallon section near the river where the Fallon well site is located.

When we purchased our home, we had no idea we would be dealing with this bureaucracy, the dishonesty, broken promises, and deep pocket greed from our elected officials, the gas & oil companies, lawsuits, uncertainty and fear of the future of our land being subject to the problems their drilling can cause. These out of state oil companies and our government politicians could care less about the impact all of this has on us. It's a sad day when it's all about the money on both ends of these deals. The land owners who support this drilling seem to just be thinking of quick easy money and do not worry about the dangers we and our children could be facing.

Please stop this dishonest invasion into our lives and our quality of life!

We strongly support the requirement of a new integration order for the Barlow 2-14. We know that what happens at Barlow can impact us here in the Fallon section. Property owners deserve the right to have input!

James I & Beverly J Smith
