

DEPT. OF LANDS

JAN 13 2020

BOISE, IDAHO

January 7, 2020

To Whom It May Concern:

In regards to the drilling of the well next to my property: I do not want this. What happens to my home if the gas well goes into production? I would want to sell. After drilling starts how can I sell my home?

I moved here from Ontario. Now I wish I was not here.

Please do your job and do not let a company from Texas come here and take from Idaho!
