**Re: Application of AM Idaho, LLC for spacing order and to integrate unleased mineral interest owners in the drilling unit consisting of the SW ¼ of Section 10, Township 8 North, Range 5 West, Boise Meridian, Payette County, Idaho; IOGCC Docket No: CC-2019-OGR-01-002**

Dear Mr. Thomas;

We are writing this letter in **opposition** to Alta Mesa drilling at our home. The Fallon well is 100 yds south of the Payette River and 1000 feet from the Fruitland Water Plant.

Our home is in located in the North View Ranch subdivision, we bought this house for retirement, there was no indication at the time of purchase that there may be an interest or drilling at our house. If we knew this, we would have never purchased at North View or surrounding area of drilling.

We are also very concerned about our homes property values, the safety of our water, the quality of our air and the surrounding landscape of our beautiful neighborhood.

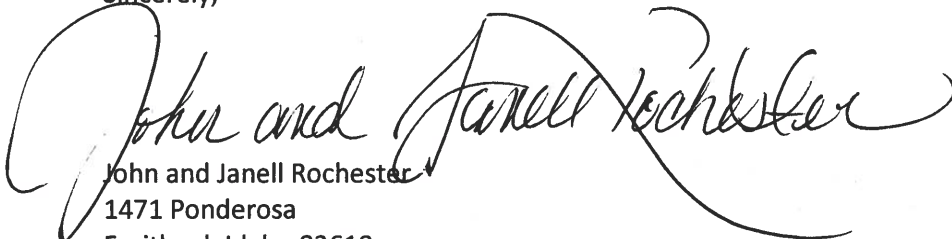

If the request does end up being approved, I feel that our home would be in jeopardy for selling since interested buyers would be concerned with safety factors and the neighborhood in general.

Our property is in jeopardy when drilling occurs, how will you help us sell our retirement home for interested people? What about our property values? Can you guarantee the water supply will be free of contamination? Is the Idaho Dept. of Lands going to pay for the value of our house? Is the Drilling company going to pay for the value of house?

This has been very un-settling to buy a retirement home and then learn that it's value, water, and neighborhood is in jeopardy.

We do expect the Idaho Department of Lands to do your job and protect private property rights!

Sincerely,

John and Janell Rochester
