To Whom It May Concern at the Idaho Department of Lands,

This email is concerning the newest oil and gas spacing application for drilling being done near the Payette River by Snake River Oil and Gas. We are against the Department of Lands going forward with allowing Snake River Oil and Gas or any other organization to go forward with gas/oil drilling in our area. We have serious concerns about the effects this drilling will have on our property, health, and water. We do not understand why the State of Idaho would push forward with the wells considering the poor track record of this project (including lawsuit, push back from property owners, company bankruptcy, etc.).

Furthermore, we do not believe it is right to be forced to comply with allowing Snake River Oil and Gas to pull resources from our property and our neighbors' property against our wishes.

Sincerely,

Cory Anne and Jacob Fortin
