I Timothy Lefebvre of 8700 Shannon Rd in Payette strongly oppose the fracking in this area for gas and or oil . This can ruin water wells and many of us live on well water and can not afford to loose our basic needs to live. My mineral right on my property are mine to be had and it is my choice to have drilling done on my property, and I'm sure my neighbors feel the same way. This company pulling these permits have gone bankrupt and opened up I. Different name I've read. I don't trust Monetarily unresponsible people.

Respectfully yours

Timothy E Lefebvre
