Nick Thomas,

We do not want to have drilling on our property or any where near us.

We want our property values to rise as time goes on.

We want our water supplies to stay free of contamination.

We want our family to be free of ANY health risks.

We want the Payette and Snake rivers to be safe for humans and wildlife.

We want the air quality safe and free from contaminants.

Please do NOT allow Alta Mesa or any other drilling company to drill in this targeted 610 acre area.

Thank you
Jimmy L Greene
