

DEPT. OF LANDS

JAN 24 2020

BOISE, IDAHO

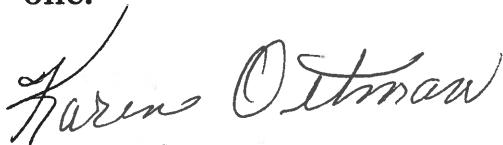

Dear Mr. Thomas,

I have been living in Idaho for 70 years. I am very, very concerned about my water and property. I do not want any wells around me. Please look at what this has done in other states. Why can't we learn from them?

You do not know with 100% certainty this will not hurt my water and property? This is America and citizens have rights. And that includes property rights.

Are you letting these guys do this for your own job security? It is your job to protect Idaho citizens.

My neighbor told me about the envelope you mailed to them. I did not get one.
