---

Chris,

Please add the attached to the record for both 001 and 002. Ms. Burnett has not indicated which docket she is referring to in her message.

Also, please add this email in the form of a pdf to both 001 and 002. This will ensure a complete record.

Regards,

**Subject:** Response for Spacing Application

Mick,

We received a response to one or both of the spacing applications filed by Snake River Oil and Gas. I did not receive any verification on which application the response was directed toward.

The original response was received on 6/10/2020 @ 12:42 pm

I responded with a request for verification on which contested case the response was directed toward on 6/10/2020 @ 4:01pm

I received a response but it was not specific to either spacing application or contested case we have right now on 6/11/2020 @ 10:40 am

I sent another request for verification and explained in the email we had received two applications and I noted the dates of each applications as well as the Docket Nos. on 6/11/2020 @ 4:58pm

As of this email, I have not received a response.

How would you like to move forward with this response? I have attached it to this email for your review.

Thank you,

**Kourtney Romine**

---

Ms. Burnett,

My apologies for not being more clear. Snake River Oil and Gas has submitted two applications for two separate spacing units. One was submitted on 02/24/20 and has Docket No. CC-2020-OGR-01-001 and another application was submitted on May 26, 2020 and has Docket No. CC-2020-OGR-01-002. Which Docket/application are you commenting on?

Thank you,

Mr. Thomas,

As a resident of Fruitland, I say NO to Snake River Oil and Gas.

Here are the reasons:

1. It would eventually force us as citizens to all this company to take from the oil and gas we own from under our homes for fee.
2. It risks our water resources and Payette river.
3. No guarantee we have protection of our property values and our families health and safety.
4. Don't want to drag this into court again ( as it has already gone to court and federal judge rules these actions were in violation to rights of property owners.
5. Too many incidents where it was promised that there will be NO risk to us, the environment related to pipelines.

WE ARE AT RISK for someone else's profit and our loss to potential property, health and safety.

I say NO to Snake River Oil and Gas.

I'm thinking you are referring to when in **2018 a federal Judge ruled that forced pooling went against the constitutional rights of property owners who had been force pooled by Texas Oil Company Alta Mesa**. Also?? Snake River Oil & Gas is in production of 2 gas wells drilled in 2018 by Payette River
