Date: Tuesday, January 28, 2020 10:20:42 PM

Idaho Department of Lands
Attn: Mick Thomas
300 N 6th Street
P O Box 83720
Boise, ID 83720

I am in **total disagreement** with taking the mineral rights of individuals without their consent. This is totally unconstititutional and highway robbery.

Also, I **disagree** in subdividing a 640 acre Section into 160 or smaller acre Section. The only advantage I see in doing so is to allow the gas and oil company(s) to line their pockets more rapidly and with less effort at the expense of the property owners!

Is it not the Idaho Department of Land's duty to ensure that the gas & oil activities **are not detrimental** to our lands, water, air quality, safety, health, property value as well as the total environment?

I appreciate it if you response to my concerns and hopefully come to a fair and just decision that is not detrimental to our land, environment and citizens of the State of Idaho.
