Subject: Docket No. CC=2020-OGR-01-001
Date: Friday, August 14, 2020 08:24:32 AM

Sir:

John Ponath and Sally Ponath are opposed to the “Spacing” application filed by Snake River Oil and Gas company.

We understand this is the beginning of the process for integration or “forced pooling” of Idaho property owners for oil and gas extraction on their property even if they did not sign a mineral lease. It will have a negative impact for all of Idaho. Especially the water supply system for Fruitland.

We love where we live and do not want to see the property values decrease due to oil and gas extraction. Oil and gas extraction are potential risk to our domestic water well, air pollution from the process, and noise of production and increase truck and auto traffic.

We understand that in 2018 a Federal Judge ruled these actions (that Snake River oil and Gas are asking for) violated my constitutional rights as Idaho property owners.

The application for “Spacing” is the first step to “forced pooling”. Deny this request and stop the process for further application for Oil & Gas extraction for other Oil and gas companies.

Sincerely,

John K. Ponath

Sally A. Ponath
