13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones, attach the Bond under which the work will be performed or provide the Bond No. on file with IDL. Required subsequent reports shall be filed within 30 days following completion of the involved operations. Final Abandonment Notices shall be filed only after operations. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Ran CBL on 9-22-14; indicates the top of cement to be at 3,100'. We propose to pump 8 cubic yards of cement from surface down to below surface pipe and shut in the backside of the production casing. This will enable us to have a full column of cement from surface to bottom of surface pipe. We will then continue with the previous dual completion plans.
