RE: Sundry Notices for Plug Back / Workover operations

Dear Mr. Janik,

The Idaho Department of Lands has received Alta Mesa Services, LP's Sundry Notices for the ML Investments #1-11 LT (USWI #11-075-20025), ML Investments #2-10 (USWI #11-075-20022) and ML Investments #2-3 (USWI #11-075-20029). Enclosed please find copies of the signed and approved Sundry Notices, subject to the following conditions:

1. All plug back and workover operations will be limited to the existing producing horizon in each well. In the case of the ML Investments #1-11, operations will be limited to the producing horizon indicated as "LT". Operations in any other horizon will require a new Permit to Drill, Deepen or Plug Back (Form IDLRPO0004.01) as specified in IDAPA 20.07.02.200.
2. Within thirty (30) days of completion of the operations, Alta Mesa Services, LP will file a Well Completion report (Form IDLRPO0003.) with the Department for each well listed above as specified in IDAPA 20.07.02.340. The report shall include a summary step-by-step description of all operations performed in association with the plug back / workover operations for each well.

Per the notice received from Alta Mesa Services, LP, the proposed operations are scheduled to commence the week of May 30, 2017. If commencement of operations is delayed beyond June 9, 2017, the Department requests a verbal notice from Alta Mesa with the new estimated date for commencement of operations.

If you have any questions, please don't hesitate to contact me at your earliest convenience.

Best regards,

A handwritten signature in black ink that reads "James Thum".

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones, attach the Bond under which the work will be performed or provide the Bond No. on file with IDL. Required subsequent reports shall be filed within 30 days following completion of the involved operations. Final Abandonment Notices shall be filed only after operations. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The purpose of this recompletion is to plugback the subject well in the interval 4158-70' ELM to eliminate water production, and to complete the well with a packer in the well to reduce the downhole restriction with the existing cement retainer in the well.

BOISE, IDAHO

Dear Mr. Thum,

Re: Completion Reports for: ML Investments #1-11 (USWN 11-075-20025) and ML Investments #1-3 (USWN 11-075-20029).

Attached, please find the original completion reports that are results from the work performed on the listed wells, per the sundry notices filed and approved with your office on May 31, 2017. For the ML Investments #2-10 (USWN 11-075-20022), although we expected to do the work proposed on the sundry notice, the project was never conducted. There is no completion report because of this. Please mark this sundry as you need to that indicates the projected work was not needed and the sundry notice deleted. Should we determine in the future that we need to conduct additional well work on the ML Investments 2-10, we will file the appropriate notice for your approval according to IDAPA 20.07.02.

If you have any further questions, please feel free to let me know.

Thank you,

Ronda Louderman  
Regulatory & Pipeline Supervisor  
ALTA MESA SERVICES, LP
