**Subject:** Re: CPC Minerals: Federal 20-3 (API: 11-019-20014) Notice to Spud Surface Casing

All,

My sincerest apologies! My calculation was off.....72 hours will be Thursday!

Please be advised that CPC Minerals plans to spud the surface casing utilizing an intermediate rig on **Thursday, October 5th at or after 1:40pm MST**. as per the 72 hour requirement of the IDL rule 310.05.a.

A notification will be sent out least 24 hours prior to the setting & cementing of the surface string casing.

Contact Joe Duncan (Drilling Engineer) to verify time of spud on **10/5/2017** at (435) 828-1472.

The big rig is planned to be on location early November to drill this well to TD, please stay tuned for updates to this date.

Feel free to contact me with any questions or concerns.

Regards,

**Ashley Noonan**
