Subject: Re: CPC Minerals : Bell 17-2 (11-019-20015) Surface Casing String 24 hour Cement Notice

James,

The CPC Minerals drilling team is progressing quicker than anticipated on the well and believes they will be ready to cement surface at 2pm today. Can we get approval to move this cementing time up from the previously anticipated time of 10pm?

Thanks you,
Ashley Noonan

Subject: CPC Minerals : Bell 17-2 (11-019-20015) Surface Casing String Spud Notice

Importance: High

All,

CPC Minerals (CPC) plans to begin MIRU on the Bell 17-2 location for the CapStar Drilling Rig on Friday, November 2nd. **CPC plans to spud the Surface Casing String late afternoon, Saturday November 3rd or Early Morning Sunday, November 4th.**

Randy Walck, Drilling Co. Man, (970) 250-0586 will be on location to supervise operations.

IDL Condition of Approval for the Installation of silt fencing around the perimeter of the drill pad, topsoil stockpile and well site access road has been completed as of October, 24th.

CPC will update the IDL OGCC with any updates to the spud date/time via email and text message (James Thum cell). (24) hour notice will be given prior to cementing operations on the Surface Casing String.

Please feel free to reach out if you have questions or concerns.

Thank you,

Ashley Noonan
