Subject: Request for Additional Information in Accordance with IC 47-332. REPORTS TO ROYALTY OWNERS (4)

Mr. Christian,

In reference to our phone conference this morning of March 7, 2019, we are formally requesting other reports or records that we require to verify the gross production, disposition and market value of the crude oil produced from Kauffman 1-9 well. At this time, we are formally requesting all transportation tickets (by truck and/or rail) for all crude oil produced since inception of the Kauffman 1-9 well. Also, we request all end purchaser records including price paid by all end purchasers for all crude oil produced from Kauffman 1-9 well.

Also, we are formally requesting an accounting for all our natural gas, NGL's, condensate, and crude oil on the Kauffman 1-34 and Kauffman 1-9 wells produced and sold or used in the manufacture of products since the inception of the wells. Included in this information, we require end purchaser records including price paid by all end purchasers for all our products/minerals produced.

We also reserve the right to request further information if needed.

Thank you,

Randy and Thana Kauffman
