Comment:

We oppose the drilling of another well for natural gas , Barlow well. It is behind my house and on the Payette River flood plain. And just upriver from the city's water plant intake. How stupid and full of problems is this?. I bet the people making these decisions do not have a well drilled behind their house. It is all about the money and logic is the last thing considered. Drill the damm well in the foothills and not in our city.
