Comment:

Please do NOT approve a drilling permit by Snake River Oil and Gas for the Barlow #2-14 well. This proposed well is to be drilled on the banks of the Payette River and in the floodplain. This well is also just upstream from Fruitland's water intake, presenting a grave potential danger to the city's water supply. The risks this well presents far outweigh any possible gain the State might realize. Please do not permit this well.

Thank you,
Tim Yoder
