## **Post Drilling/Annual Well Site Inspection Form**

Section 1: General Information		
Operation Data	Inspection Data	
Operator Name	Inspector Name	
Snake River Oil + Gas, LLC	James Thum	
	Area Office	
Barlow #1-14, USWN 11-075-20033           Authorized Contact         Dan Johanek (208)707-7867	Boise / Director's Inspection Date	
112 N. Plymouth, New Plymouth ID	3/16/2022 3:45 PM	
County	Report Date	
Payette	3/22/2022	
Inspector's Signature: /signed/ James Thum	Inspection Summary:	
	Operation appeared to be in compliance at the time of the inspection.	
Date of Signature: 3/22/2022	Issues of concern identified at the time of the inspection.	
<ul> <li>Location Description: 1.0 miles ENE from Hwy 30 and Hwy 95 intersection in Fruitland, ID, large island in Payette River. Google Maps location Latitude 44.029862, Longitude -116.904138. Well pad is shared with the directionally-drilled Barlow #2-14 completed in a separate source of supply. Well is currently producing (Harmon Field). Weather-Partly cloudy, temperature 60° F, NW wind 10-15 MPH.</li> <li>Note: This well was given cursory inspections 9/16/2021, 10/18/2021 and 11/3/2021 as part of well construction and completion operations for the Barlow 2-14 well (USWN 11-075-20036) which was directionally drilled from the same pad approximately 25 feet SE of the existing well bore.</li> </ul>		
Scope of Inspection (check all that apply and, or, were verifi	ed during the inspection):	
$\boxtimes$ Well site $\square$ Tank Battery $\boxtimes$ We		
If well site, is the well a multiple zone completion?		
Section 2: Pits	IDAPA 20.07.02.230	
1. Are pits located on site?Well drilled in 2018	with closed mud system $\Box$ Yes $\boxtimes$ No	
A. If yes;		
i. Permitted as:	Short-term pit 🗌 Long term pit	
ii. Use Corresponding Pit Inspection Form and		
	attach with this hispection.	
Section 3: Identification of Wells	IDAPA 20.07.02.300	
1. Is a lease access road sign visible where the principal	lease road enters the lease? Xes No	
A. If yes;		
i. Does the sign show:		
	🖂 Yes 🗌 No	
b. The name of the owner or operator?	Yes No	
c. The Section, Township and Range?	🖂 Yes 🛄 No	
2. Is a legible well site sign visible near the well?	🖂 Yes 🗌 No	
A. If yes;		
i. Does the well site sign identify the;		
a. Operator?	🖂 Yes 🗍 No	
b. Permit number?	$\bigvee$ Yes $\square$ No	
c. Well name?	Xes No	
d. Emergency telephone number?	🖂 Yes 🗌 No	

3. For multiple wells/completions, is there a sign for each well head connection?	🗌 N/A 🛛 Yes 🗌 No
---	------------------

Sectio	n 4: Location Operations	IDAPA 20.07.02.301
1.		🗌 N/A 🔀 Yes 🗌 No
	(Answer N/A if the well has not been completed and fencing is not erected)	
	A. If Yes;	
	i. Was the fence installed within 60 days of completing the facility?	🛛 Yes 🗌 No
	ii. Does the fence appear to:	
	a. Maintain safe working conditions?	🛛 Yes 🗌 No
	b. Secure the well site?	🛛 Yes 🗌 No
	c. Prevent access by wildlife and livestock?	🛛 Yes 🗌 No
2.	Is there less than 5% vegetation on site?	🛛 Yes 🗌 No
3.	Has it been more than six months since the removal of the drilling rig? A. If No;	🗌 Yes 🔀 No
	i. Are chemicals stored and maintained in accordance with all	
	applicable MSDS requirements?	🛛 N/A 🗌 Yes 🗌 No
	ii. Are all materials related to operations palletized?	🗌 N/A 🗌 Yes 🖂 No
	iii. Do all vehicles or materials on the site appear to be in use?	🗌 N/A 🛛 Yes 🗌 No
	iv. Is the site free from all trash, debris, or scrap metal on site?	🗌 Yes 🛛 No
	a. If no, is all trash, debris and scrap metal pending removal kept in a wind proof container and appear emptied regularly?	🗌 N/A 🗌 Yes 🔀 No
	b. If trash or debris constitutes a fire hazard, is it removed to at least 100 feet from the facility, tanks or separators?	🗌 N/A 🔀 Yes 🗌 No
	B. If Yes;	
	i. Are all debris and waste materials including, but not limited to, concrete, sack bentonite and other drilling mud additives, sand, plastic, pipe, and cable associated with the drilling and completion operations removed and disposed of properly?	🗌 Yes 🗌 No
	ii. Are all disturbed areas affected by drilling or subsequent operations, except areas reasonably needed for production operations or subsequent drilling operations within twelve months, reclaimed and revegetated to approximately the pre-drilling condition (in accordanc	e
	with IDAPA 20.07.02.510.04-07 or to the condition specified in an agreement with the surface owner.	🗌 Yes 🗌 No
	n 5: Accidents and Fires 02.302	IDAPA
	Is the emergency response plan available for use or inspection?	🛛 Yes 🗌 No
	A. If yes, does the operation appear to be consistent with the response plan?	$\square$ Yes $\square$ No
2.	Is the location free of evidence of recent fires?	🖂 Yes 🗌 No

	A. If no, have they been properly reported?	N/A Yes No
3	. Ask for a spill prevention and countermeasures plan	
5.	(SPCC can be located in company office). Are they aware of it?	🖂 Yes 🗌 No
	on 6: Chokes /.02.312	IDAPA
	. Are all flowing wells equipped with adequate chokes to properly control flow?	□ N/A 🛛 Yes □ No
1.	. The un nowing wens equipped with deequate choices to property conditions.	
	on 7: Measurement of Gas	IDAPA
1.	. Is the site a natural gas well?	Yes No
	A. If yes, is there a standard industry meter approved by the American Gas Ass and capable of recording accurately the volume of natural gas produced at each	
	B. If no, is there another methodology being utilized that has been approved by	
	the Department? a. If yes, describe:	🖾 N/A 🗋 Yes 🗋 No
	a. If yes, describe.	
2.		for each well
	Well Site Little Willow Gathering Facility Other:	_
	on 8: Meters /.02.410	IDAPA
1.		
	$\boxtimes$ Coriolis Measuring System for Liquids $\boxtimes$ Orifice Measuring System for C	Jas
	Coriolis Measuring System for Liquids Corifice Measuring System for C	Jas
2.		Gas 🖂 Yes 🗌 No
2. 3.	Other:	
2. 3. 4.	<ul> <li>Other:</li> <li>Are meter fittings of adequate size to measure gas efficiently?</li> <li>Are meters accessible and viewable?</li> </ul>	∑ Yes □ No ∑ Yes □ No

	i.	If yes;
		a. Do the dikes have a capacity of at least 1 $\frac{1}{2}$ times the volume of the largest tank? $\Box$ Yes $\Box$ No
		<ul> <li>b. Is all piping and manmade improvements that perforate the dike wall or tank battery floor sealed to a minimum radius of 12" from outside edge of the piping or improvement?</li> </ul>
		c. Are valves and quick-connect couplers at least 18" from inside wall of tank dike? 🗌 Yes 🗌 No
		d. Is vegetation on top and outside surface properly maintained?
		e. Is a ladder or other permanent device installed over the tank dike to access the containment reservoir?
		f. Is containment reservoir free of vegetation, storm water, produced fluids, other oil and gas field related debris, trash or flammable material?
E.	Do	drain lines have a valve installed, closed and capped off if not in use?
Section 10	: Ins	spection Comments
Comments	and	Issues of Concern: Cellar filled with gravel and protective grating removed.
New outer	fence	e on east side of the pad with cattle guard. Uncovered mouse hole $\sim 20$ feet deep next to well tree.
Still minor amounts of debris/trash on site from drilling ops, some equipment on site due to ongoing work and maintenance.		
No SDS pa	perw	rork in waterproof tubes on scavenger unit.
FTP, Produ	ictior	a casing and Surface casing pressures N/A; gauges not installed. Did not enter separator unit.
Section 11: List any ar		achments I attachments including photos, samples, documents, etc: See attached photos
•••• •• ••		

Barlow #2-14 wellhead on left, Barlow #1-14 wellhead on the right. View south.

Southwest side of well pad, looking SE. Old cellar grate from Barlow 1-14. Cellar now gravel-filled. Dual separator unit in left background with miscellaneous equipment trailer and scavenger unit.

NE side of separator unit looking NNW towards well heads.
