Please, in response to legislative deliberations on the forced-pool gas well drilling permits now under consideration. Please, Please, please give the environment a break. All republicans seem to do is take, take, take screw our state lands. The effects of burning fossil fuels is plainly visible. Warming conditions planet-wide are wreaking havoc right here in Idaho. I've seen dramatic reductions in precipitation and hotter temperatures are turning our forests into giant tinderboxes for cryin' outloud. I moved here in 1979.

To say no to corporate monies for once. The earth isn't going to put up with it much longer. IT WILL GIVE HUMANITY THE BOOT.

Please block the permit applications. Thank you for your attention in this matter,  
Jim Roach,  
Moscow
