RE: Application for Drilling on Miller Property

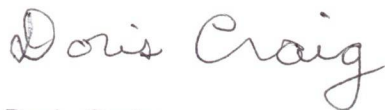

My husband and I are 88 and 82. Our home is only one-fourth away from the proposed drill site.

We are concerned about how this will impact our health and safety. Specifically, our air and water. Because of our ages we are compromised. If our water aquifer is contaminated and we must move, we cannot start over financially.

I am requesting: * payment that will allow us to move elsewhere during the drilling and flaring

*water testing by a third-party certified water tester

I appreciate your consideration regarding this catastrophic situation next to our home.

A handwritten signature in cursive script that reads "Doris Craig".
