Re: ML Investments #2-10 (USWN 11-075-2002) Request to Extend Permit to Treat Well

Dear Mr. Christian:

The Idaho Department of Lands (the Department) received your April 16, 2026, request to extend a well treatment permit for the ML Investments #2-10 well (ML #2-10), USWN 11-075-20022, operated by Snake River Oil & Gas, LLC (SROG) in the state of Idaho. The request for an extension of the permit states that well conditions have not changed, and the operator is not requesting a change in the procedure as described in the permit issued May 28, 2025.

Pursuant to IDAPA 20.07.02.210.03, the request for a six-month extension to November 30, 2026 to the permit to treat the well is approved, subject to the following conditions:

1. A Static Bottom Hole Pressure (SBHP) be obtained on the ML #2-10 at the beginning of operations.
2. A Mechanical Integrity Test (MIT) be performed prior to the injection treatment.
3. Any additional workover operation plans beyond the proposed gas injection procedure approved in the May 28, 2025 permit shall be submitted to the Department by Sundry Notice within ten (10) calendar days of the operation for Department review.

Please ensure that all operations are conducted in accordance with the requirements of IDAPA 20.07.02 Rules Governing Conservation of Oil and Natural Gas in the State of Idaho. Please contact me or James Thum, Oil & Gas Program Manager, if you have any questions.

Sincerely,

Shannon Chollett
Division Administrator
Minerals, Navigable Waters, Oil & Gas

Michael Christian
