To whom it may Concern,

I am writing this letter in response to your Idaho Department of Lands and Idaho Oil and Gas Conservation Commission letter dated earlier this year.

I believe the well will result in possible problems with our fresh water supply in the area. The permit should be rejected for of that of reason. The location of the well site is located in the center of the Fruitland, ID area. The population of Fruitland depends on clean clear water. Our water table does not need this problem to contend with. Please consider the importance of good clean water for Fruitland ID.

I say no to the permit.

Dennis E Gray
