Oil and Gas Monthly Disposition Codes

Oil / Gas / NGL's

Code	Disposition	Description
1	Pipeline	When production is transferred via pipeline to a gathering or processing facility.
2	Truck	When production is transferred via truck.
3	Tank Car	When production is transferred to a tank car.

Gas

Code	Disposition	Description
1	Sales	When a product is directly sold from the lease.
2	Lease Or Fuel Use	When gas is used for field operations including lease fuel, compressor fuel, operational fuel, etc.
3	Vented Or Flared	To report gas vented or flared, either during testing or well production.
4	Transferred To Gathering Facility	When production is transferred to a gathering facility.
5	Transferred To Processing Facility	When production is transferred to a separation or plant facility for processing (typically where liquids are extracted from the gas stream and the shipper/operator receives an allocation for drip/retrograde condensate).

Water

Code	Disposition	Description
1	Pipeline To Injection Well	When produced water is transported via pipeline to a Class II Injection Well for disposal.
2	Truck To Injection Well	When produced water is transported via truck to a Class II Injection Well for disposal.
3	Pipeline To Evaporation Facility	When produced water is transported via pipeline to an evaporation tank, pond or facility for disposal.
4	Truck To Evaporation Facility	When produced water is transported via truck to an evaporation tank, pond or facility for disposal.
