Dear Kourtney,

We are very concerned about the oil/gas well drilled by Alta Mesa. They have been very dishonest with us regarding this venture. We live very close to the Payette River and this new well.

We do not want our property values jeopardized.
We do not want our water supply contaminated.
We do not want to deal with the health risks.
We DO want our Payette River safe.

We expect our government to protect our private property rights.

Thankfully we live in the United States of America where these freedoms still exist. But not for long if our government gives in to the special interests and the ensuing corruption!

God Bless America!
