Dear Mr. Thomas,

I have been living in Idaho for 70 years. I am very, very concerned about my property and my water.

This all seem like a fiasco—the letters I get about the bankruptcy, all the names of the companies, and the indecision about the location of the gas.

Why are we being subjected to all of this? Who is gaining financially? It is not our county. There seems to be a conflict of interest from the Governor down to our Payette County officials.

Make this right! Do not add insult to injury!

Listen to our cries! And do the right thing!
